

The image displays a 10x10 grid of 100 Braille characters. Each character is composed of dots on a 3x3 grid, with the number of dots ranging from 1 to 10. The characters are arranged in a way that demonstrates the combinatorial possibilities of Braille notation. The first row contains 10 characters, each with a unique dot pattern. The second row contains 10 characters, each with a unique dot pattern. The third row contains 10 characters, each with a unique dot pattern. The fourth row contains 10 characters, each with a unique dot pattern. The fifth row contains 10 characters, each with a unique dot pattern. The sixth row contains 10 characters, each with a unique dot pattern. The seventh row contains 10 characters, each with a unique dot pattern. The eighth row contains 10 characters, each with a unique dot pattern. The ninth row contains 10 characters, each with a unique dot pattern. The tenth row contains 10 characters, each with a unique dot pattern.
