

The image displays a 10x10 grid of 100 Braille characters. Each character is a unique combination of dots 1 through 6, arranged in a 2x5 grid pattern. The characters are organized into four groups of 25, corresponding to the four quadrants of the Braille cell. The groups are: 1. Dots 1-5 (top-left quadrant), 2. Dots 2-6 (top-right quadrant), 3. Dots 3-4 (bottom-left quadrant), and 4. Dots 3-6 (bottom-right quadrant). The characters are arranged in a way that they can be read as a single Braille character when combined.
