

The image displays a 10x10 grid of 100 Braille characters. Each character is a unique arrangement of the six dots in a Braille cell. The characters are organized into four groups of 25, with each group having a distinct visual style. The groups are arranged in a 2x5 grid, with the first group in the top-left, the second in the top-right, the third in the bottom-left, and the fourth in the bottom-right. The characters within each group are arranged in a 5x5 grid, with the first character in the top-left and the last in the bottom-right. The characters are arranged in a way that they are easy to distinguish from each other, even when they are small.
