

The image displays a 10x10 grid of 100 Braille characters. Each character is a unique combination of dots 1 through 6, arranged in a 2x5 grid pattern. The characters are organized into four groups of 25, corresponding to the four quadrants of the Braille cell. The groups are: 1. Top-left quadrant (dots 1, 2, 3, 4, 5), 2. Top-right quadrant (dots 1, 2, 3, 4, 6), 3. Bottom-left quadrant (dots 1, 2, 3, 5, 6), and 4. Bottom-right quadrant (dots 1, 2, 4, 5, 6). The characters are arranged in a way that they can be read as a single Braille character when combined.
