

The image displays a 10x10 grid of 100 Braille characters. Each character is a unique combination of dots 1 through 6, arranged in a 2x5 grid pattern. The characters are organized into four groups of 25 characters each, corresponding to the four quadrants of the Braille cell. The groups are as follows:

- Top-Left Quadrant (Characters 1-25):** These characters have dots 1 and 2 raised. They represent the letters A through Y, with Z represented by a specific dot pattern.
- Top-Right Quadrant (Characters 26-50):** These characters have dots 3 and 4 raised. They represent the letters A through Y, with Z represented by a specific dot pattern.
- Bottom-Left Quadrant (Characters 51-75):** These characters have dots 1 and 3 raised. They represent the letters A through Y, with Z represented by a specific dot pattern.
- Bottom-Right Quadrant (Characters 76-100):** These characters have dots 2 and 4 raised. They represent the letters A through Y, with Z represented by a specific dot pattern.
