

The image displays a 10x10 grid of 100 Braille characters. Each character is a unique combination of black dots on a white background, arranged in 10 rows and 10 columns. The characters are formed by combinations of the 6 basic Braille dots (1-6) in a 2x3 grid. The first row contains characters from Braille A to Braille J, and the grid continues in this pattern for the remaining 90 characters.
