

The image displays a 10x10 grid of 100 Braille characters. Each character is composed of dots on a 3x3 grid. The dots are represented by black squares on a white background. The characters are arranged in a regular grid, with each character occupying a single cell. The characters are formed by different combinations of dots, representing various Braille letters and symbols. The grid is organized into 10 rows and 10 columns, totaling 100 characters.
