

The image displays a 10x10 grid of 100 Braille characters. Each character is a unique combination of the six dots in a 2x3 arrangement. The grid is organized into 10 rows and 10 columns, with each cell containing a single Braille character. The characters are arranged in a way that demonstrates the full range of possible combinations for the six dots, starting from the simplest (dots 1-2-3) and progressing through various permutations and combinations up to the most complex (dots 1-2-3-4-5-6).
